

PLSC 503: “Multivariate Analysis for Political Research”

Exercise Ten

Your assignment is:

1. Take the data and concepts from [Exercise Nine](#), fit an ordered-response model to the same outcome, and interpret your findings.

(I told you this would be simple.)

This assignment is due (electronically, in the usual fashion) at 11:59 p.m. EST on Wednesday, April 24, 2024, and is worth the usual 50 points.
